AND ACCESSORIES**

ISO 9001 is a standard of standardization for a particular service or product. This management system aims to optimize processes and develop products more quickly, in order to satisfy customers. It can be applied in conjunction with other operating standards, such as: occupational health, environment and safety standards.

The term FSSC 22000 is an acronym for Food Safety System Certification, which is a certification (or standard) that aims to monitor and guarantee the production and distribution of food with safety and quality.

The mark of  
responsible forestry

FSC® certification is a powerful economic tool for sustainable development and environmental management that fights deforestation, contributes to the responsible use of forest resources, promotes the maintenance or improvement of ecosystem services, such as water supply, carbon stock and values cultural activities, helps in the conservation and regeneration of natural forests and wildlife, respects the well-being, dignity and rights of workers, local communities and indigenous peoples, and adds great socio-environmental value to certified products.

Yum! Brands® Tier 1 Supplier 2022.

The Yum! Brands is an American holding company in the food sector that controls, develops, franchises and licenses the fast-food chains KFC, Pizza Hut, Taco Bell and Wingstreet globally. The company is responsible for more than 50,000 restaurants located in 150 different countries.

The audit carried out by the company is divided into guides, focusing on food safety criteria, in which approximately 450 items related to food safety are evaluated, and quality system, which is related to the quality of the physical, chemical and sensory parameters of the brand's products.

Certified B Corporation is a global movement of companies that seek to combine profit with socio-environmental development. These are companies that are genuinely concerned about helping the world by taking into account the impact their actions have on the environment, their employees, customers and society in general.

## Personalized Cup Line

One of Gaia Prairie Band's commitments is to produce our biodegradable paper cups and straws and plastic lids with quality, ensuring manufacturing standards, as well as applicable legal requirements and those of our customers. Thinking about meeting the needs of our customers and making them stand out in the market, we offer a personalized line of our products.

# Cup Guide

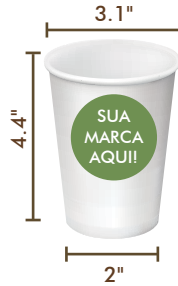

## Cup 6 fl. oz.

Case: 1,500 Cups  
20 Pkg - 75 Cups

Case Size:  
14.57 X 11.73 X 20.87  
(L X W X H) inches  
Weight: 16 lbs

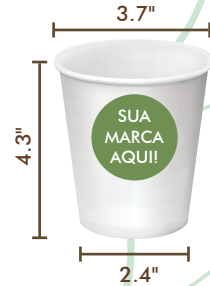

## Cup 8 fl. oz.

Case: 1,500 Cups  
20 Pkg - 75 Cups

Case Size:  
16.22 X 13.19 X 20.47  
(L X W X H) inches  
Weight: 23 lbs

## Cup 12 fl. oz.

Case: 1,000 Cups  
20 Pkg - 50 Cups

Case Size:  
18.90 X 15.35 X 22.20  
(L X W X H) inches  
Weight: 22.5 lbs

## Cup 16 fl. oz.

Case: 1,000 Cups  
20 Pkg - 50 Cups

Case Size:  
18.90 X 15.35 X 22.36  
(L X W X H) inches  
Weight: 26 lbs

## Cup 26 fl. oz.

Case: 750 Cups  
15 Pkg - 50 Cups

Case:  
21.45 X 13.20 X 23  
(L X W X H) inches  
Weight: 25 lbs

## Straw Size Guide

**Premium Bendable  
180° Paper Straw  
Ø 0.24" X 7.9"**

Diameter: 

Case: 3,000 Straws  
30 Inner Packs - 100 Straws/each

Master Case:  
21.46 X 12.40 X 9.84  
(L X W X H)inches  
Weight: 10,80 lbs

**Premium Paper Straw  
with or without angle cut  
Ø 0.28" X 7.9"**

Diameter: 

Case: 2,500 Straws  
25 Inner Packs - 100 Straws/each

Master Case:  
21.46 X 12.40 X 9.84  
(L X W X H)inches  
Weight: 12 lbs

**Premium Paper Straw  
with or without angle cut  
Ø 0.28" X 10"**

Diameter: 

Case: 2,400 Straws  
6 Inner Packs - 400 Straws/each

Master Case:  
21.46 X 12.40 X 11.42  
(L X W X H)inches  
Weight: 14.5 lbs

**Premium Milkshake  
Paper Straw  
Ø 0.35" X 7.9"**

Diameter: 

Case: 1,500 Straws  
15 Inner Packs - 100 Straws/each

Master Case:  
21.46 X 12.40 X 9.84  
(L X W X H)inches  
Weight: 9.5 lbs

**Premium Milkshake  
Paper Straw  
Ø 0.35" X 10"**

Diameter: 

Case: 1,440 Straws  
6 Inner Packs - 240 Straws/each

Master Case:  
21.46 X 12.40 X 11.42  
(L X W X H)inches  
Weight: 11.86 lbs

**Premium Boba Paper  
Straw with or without  
angle cut Ø 0.43" X 7.9"**

Diameter: 

Case: 1,200 Straws  
12 Inner Packs - 100 Straws/each

Master Case:  
21.46 X 12.40 X 9.84  
(L X W X H)inches  
Weight: 9.26 lbs

**Premium Boba Paper Straw  
with or without angle cut  
Ø 0.43" X 10"**

Diameter: 

Case: 1,110 Straws  
6 Inner Packs - 185 Straws/each

Master Case:  
21.46 X 12.40 X 11.42  
(L X W X H)inches  
Weight: 11.5 lbs

## Common Questions

Are your products really environmentally friendly?

Absolutely! Our products are all made with sustainably harvested papers, all FSC® certified. We use only water-based inks and coatings to eliminate the traditional use of solvent-based chemicals. All of our cups are made without plastic linings, and are able to be used for hot or cold beverages, eliminating the need for multiple cups. As a result of these choices, our products are all compostable, recyclable and biodegradable, including in marine environments.

You claim to outperform the competition, why do you say that?

We have tested thousands of our competitor's products. Most of them come from China or India, and the raw materials used are substandard and in some cases even dirty. We have the cleanest factory anywhere in the world making these product lines. We have the newest equipment and technology. We use only the best materials and processes to further ensure performance such as our choice of adhesives, coatings and processing. We incorporate new technology such as bendable straws, angle-cuts, super-jumbo sizes for boba and smoothies and can produce low-quantity custom printed solutions. Don't take our word for it - test our product for yourself, and we know you'll never go back.

Better quality almost always means higher prices. Are you competitive with the market?

We firmly believe you get what you pay for, but we also believe that you should never have to over-pay for quality. We are absolutely competitive within the marketplace for average to above-average quality products from our competitors. We are below the average cost for most of our competition in the above-average to premium quality category, and still outperform all of them in terms of product durability, safety and features.

Paper straws are notorious for falling apart in drinks, frustrating our customers and costing us money by requiring us to use multiple straws and even replace drinks. Can your products prevent this?

This is exactly the situation we have developed our straws to prevent! Nothing is more costly than upset customers, and the added cost of giving away free drinks and using multiple straws per drink costs many times more than just buying the right product to start with. We have a paper that is surface treated to prevent absorption, and adhesives that are stronger and not quickly water-soluble while still being biodegradable and recyclable. Our straws have passed the "Three Margarita" trials, where we test them in alcoholic beverages for multiple drinks without failure. Alcohol quickly destroys almost every other straw in the market quickly, but not ours. Bar owners should try our wider diameter straws, which let the customer get more liquid with every sip, so they enjoy frozen cocktails and mixed drinks before they get watered down.

How is your company different from the others in this space?

We are the only American company using the specific paper we have for our products, and are the testing partner for the mill for cups and straws, so we get the most advanced product developments months ahead of anyone else. Socially and environmentally, we stand alone as well. We have the most robust environmental stewardship program of anyone in our industry, with active reforestation and forest preservation programs in place. Our corporate social responsibility programs are also leading the industry in the scope of our impact and variety of people we are able to help. Check out our website at [www.gaiapb.com](http://www.gaiapb.com) to learn more and see our words put into action.

I want to buy your product, but I use a distributor to simplify my purchasing and deliveries. How can I buy your products if our distributor doesn't carry your line?

We are open to working with almost any distributor in the country. If you aren't able to get our products through them, we can arrange a call with them together and start the process to get them to offer our brand. Ultimately, you are the customer, and no distributor wants their customers to shop elsewhere. They should have no problem buying our products to support your business! If they refuse, we can and do offer drop-ship in many cases, so you won't have to miss out.

We want to customize our cups and straws. Can we do this?

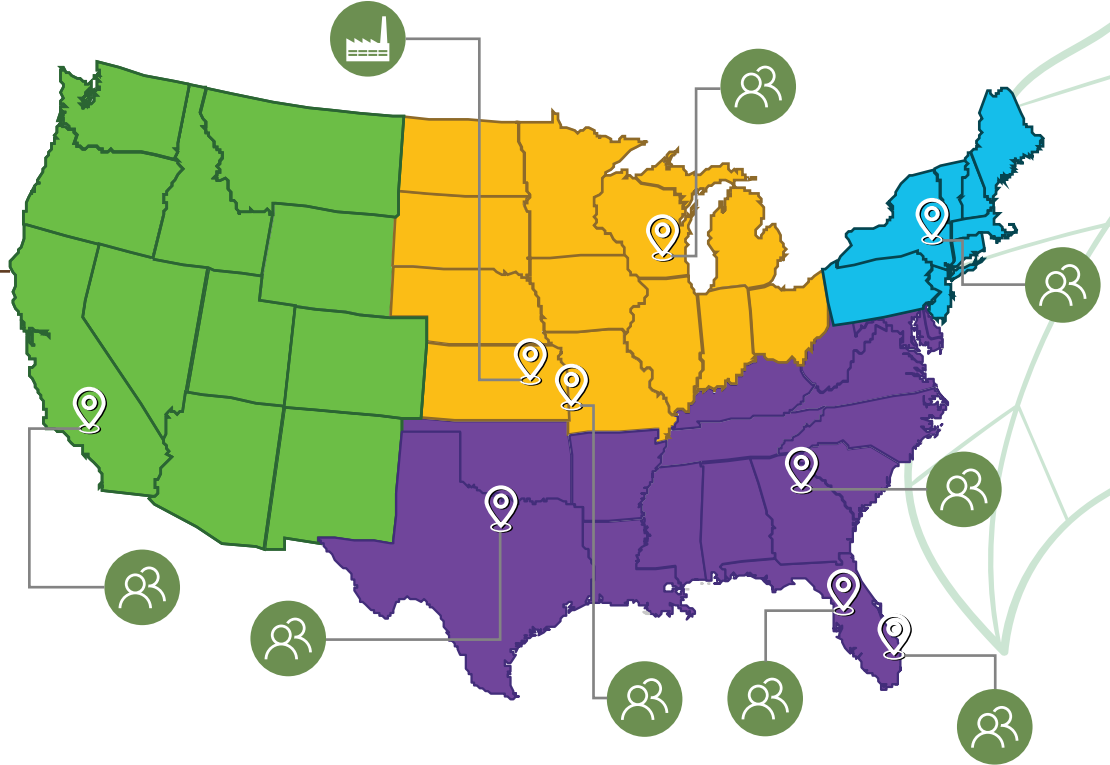

Yes! We have 4 color printing done in-house. Our minimums are typically under 50,000 cups, and in some cases, for established customers, we've printed as few as 25,000 to help them out. Small runs do cost a little more, but it's pennies, not dimes in terms of difference, and it allows you to have the impact you need for your event without the cost of owning tens of thousands of cups you don't need. Tooling is inexpensive as well. Contact us with your project and let's show you what we can do! We have full rendering capabilities for quick photo-realistic representation of what we can produce for you with your art. Or, if you need, we can help with the design of something for you to really help you make an impact!

Some of Our Clients

### About us?

To promote change it is necessary to lead. We are leading in the development of new ways to create sustainable products, with a negative carbon footprint goal.

We constantly develop new platforms, with the objective of improving the life of our Gaia Prairie Band Team and the life of the community in which we operate.

### What we do?

We manufacture paper cups and straws with sustainable inputs, environmentally friendly, 100% biodegradable and recyclable.

### Mission

Create and supply safe, quality and sustainable products, without generating environmental impact, while at the same time being a model company in social responsibility, providing a better life and world, guaranteeing the future for new generations.

### Vision

To be recognized by customers and society as a reference in our field of activity, for providing safety and quality of products, as well as care for the environment.

### Values

- Focus on the customer;
- Guaranteeing the safety of our processes, products, employees and customers;
- Continuous improvement,
- Transparency, Seriousness, Commitment and Ethics;
- Respect for everyone and diversity;
- - Contribution to Society and the Environment.
